

THE ORDER
OF THE MINISTER OF HEALTH OF THE REPUBLIC OF LITHUANIA

**ON THE APPROVAL OF THE LIST ON TYPES OF PROFESSIONAL
QUALIFICATIONS OF MEDICAL PRACTICE**

28 June 2004 No V-469
Vilnius

Pursuant to the Clauses 3 and 4 of Article 4 of the Law on Medical Practice of the Republic of Lithuania (Official Gazette, 1996, No 102-2313; 2004, No 68-2365):

1. I approve the following list on the types of professional qualifications of medical practice (attached).

2. I hereby establish that:

2.1. before the entry into force of this Order, issued and/or re-registered original licences of medical practice to engage in doctor's practice and specialized licences of medical practice (hereinafter – the licences) to engage in relevant practice of doctor specialist which professional qualification is specified in the list of types of professional qualifications of medical practice shall give the right to the licensee to engage in medical practice under the professional qualification indicated in the licence only before the date specified;

2.2. the end of the validity term of licences referred to in paragraph 2.1 of this order or their re-registration, but at least one month (recommended for two - three months) before the end of this term, the licensee shall apply to the licensing authority in accordance with procedures prescribed in the licensing rules on medical practice for the issuance of a new type of medical practice licence together with an application to issue a medical practice licence to provide the documents, confirming that he developed his doctor's professional qualification during the past five years according to the legislation and was legally engaged in the medical practice, and return the original of a licence or its duplicate;

2.3. Repealed.

2.4. The list on types of professional qualifications of medical practice can be supplemented by a new professional qualification, having submitted the projects of specialist training programmes and medical standards to the Ministry of Health of the Republic of Lithuania that are consistent with the University of Vilnius, Kaunas University of Medicine and specialty societies where the professional competence of doctors fully or partially concur with the professional qualification of newly trained specialist.

2.5. professional qualification of a doctor - maxillofacial surgeon shall be acquired after the completion of integrated university medical studies and five-year maxillofacial surgery residency;

2.6. doctor of medicine who has acquired the professional qualification (specialty) of doctor of medicine and maxillofacial surgeon shall be equated to the maxillofacial surgeon.

3. I entrust:

3.1. Health Care Resource Management Division to prepare the description on the procedures until 1 October 2004 which will include the determination how the licensees of certificates referred to in paragraph 2.3 of this Order will be able to engage in the activity specified in a certificate or licence since 1 January 2005;

3.2. the execution of this order to the Secretary of the Ministry in accordance with the field of administration.

APPROVED BY
the Order No V-469
of the Minister of Health of
the Republic of Lithuania
of 28 June 2004
